PROFILE

Senior full-stack developer with 14+ years building web applications, specialising in Vue.js, React and TypeScript, with hands-on back-end experience in Node.js, PHP and SQL. At Setly I led the migration of a legacy jQuery codebase to Vue.js, I'm now driving the move to Vue 3, and I designed and built Preebooks, an internal task app used across the company. I also lead a small development team.

PROFESSIONAL EXPERIENCE

SETLY | SENIOR FULL-STACK / FRONT-END DEVELOPER

Jan 2019 – Present

- Led the migration of the flagship web application from a legacy jQuery codebase to a modular, component-based Vue.js architecture, improving maintainability and performance.
- Driving the ongoing migration from Vue 2 to Vue 3, introducing TypeScript and updated state management patterns.
- Designed and built Preebooks (2023–2025) on my own, a recurring-task and reminder app adopted across the company to keep payroll and accounting teams ahead of client deadlines. Built with React, Next.js, Prisma and MySQL on PlanetScale, deployed on Vercel.
- Came up with and built a points system that rewarded tasks completed ahead of deadline, with points redeemable for company perks, which cut missed deadlines by around 60%.
- Lead a small team of developers alongside hands-on engineering: task allocation, code reviews and mentoring.
- Work with back-end developers to design and integrate on-site modules, connecting Vue interfaces to REST APIs and database models.
- Deliver full-stack features in PHP, Node.js and JavaScript, plus Kotlin for the company's Android app.

IMC | FRONT-END DEVELOPER

Oct 2017 – Dec 2018

- Delivered platform features and resolved high-priority bugs for a large-scale system in an Agile/Scrum team.
- Refactored legacy AngularJS components into Angular 2+, establishing modular, reusable component patterns.
- Improved database search response times by ~30% by refining SQL query structures and optimising front-end data handling.

SC I.T.N.T SRL | FRONT-END DEVELOPER

Aug 2015 – Oct 2017

- Built dynamic front-end interfaces that rendered back-end PHP data using JavaScript and JSON APIs.
- Established company-wide coding standards for HTML, CSS and JavaScript, with cross-browser testing to keep layouts consistent.
- Created custom email templates and campaign landing pages designed for broad client compatibility.
- Integrated Google Maps API features with custom markers and geolocation for a travel agency website.
- Used Grunt/Gulp build pipelines and performance tooling to cut mobile load times from 7.2 s to around 3.3 s.

FREELANCE / CONTRACT WEB DEVELOPER

2016 – 2019

- One Mineral Dev SRL, Daro Media SRL, Graffino
- Built the front end for LuxGive and onefinestay from desktop-only Photoshop mockups, designing and implementing the tablet and mobile layouts myself.
- Built the patient data forms for a web application used by paramedics in Japan, capturing information at the scene and sending it to hospitals ahead of arrival. Front end in JavaScript and jQuery.
- Designed and built the Isotech product website end to end, from Photoshop mockups to a custom WordPress theme, setup and launch.

PROFESSIONAL EXPERIENCE

INTEGER PERFORM SRL | HEAD OF IT DEPARTMENT / WEB DEVELOPER

Jan 2014 – May 2015

- Oversaw the entire IT infrastructure alongside website maintenance for internal systems.
- Designed custom, mobile-first responsive layouts using CSS media queries and preprocessors (LESS/SASS).
- Developed custom WordPress themes and provided team-wide training on jQuery, Grunt and project tools (Asana, Trello).

PASCALINI IT SOLUTIONS | WEB DESIGNER / JUNIOR FRONT-END DEVELOPER

Jul 2012 – Aug 2013

- Built web page layouts from visual mockups using HTML and CSS.
- Designed visual assets, UI elements, vector logos and marketing materials in Adobe Photoshop and Illustrator.
- Configured custom themes and storefront layouts across OpenCart, PrestaShop and Magento.

CORE COMPETENCIES

Front end: Vue.js (Vue 2 / Vue 3), React, Next.js, Angular (AngularJS and 2+), JavaScript (ES6+), TypeScript, HTML5, CSS3, SASS / LESS / Stylus, responsive design

Back end & data: Node.js, PHP, Prisma, MySQL, RESTful APIs, query optimisation, Kotlin (Android)

Tooling & DevOps: Git, Jenkins, CI/CD pipelines, Vercel, Vite, Webpack, Grunt, Gulp

CMS & e-commerce: WordPress (custom theme development), OpenCart, PrestaShop, Magento

Ways of working: Agile / Scrum, team leadership, code review, UI/UX best practices, cross-browser and mobile optimisation; Jira, Linear, Notion, Asana, Trello

CERTIFICATIONS

Certified KPI Professional — The KPI Institute, May 2014

LANGUAGES

Romanian (native) · English (C1)

EDUCATION

Faculty of Engineering, ULBS (degree not completed) · High school diploma

INTERESTS

Chess, Rubik's Cube, GeoGuessr, woodworking & DIY, gardening
